## 2018/2019

[www.mpw.ac.uk](http://www.mpw.ac.uk)

# About the College

MPW Birmingham is a co-educational college accepting up to 250 students each year for GCSE, A level and Oxbridge entrance. We offer intensive, small-group tuition in a socially relaxed yet academically rigorous environment.

MPW Birmingham is part of the MPW group of colleges founded in London in 1973. The college is located in Edgbaston Village, only a few minutes from the city centre and the University of Birmingham. It was opened in 1980 and is the only college of its kind in the West Midlands.

MPW relocated to larger, newly refurbished premises in 2006 and the site was substantially extended again both in 2015 and 2018. The college now boasts greatly enhanced facilities to meet all the needs of our expanding student base.

No student is accepted without attending an interview, the initial purpose of which is to provide parents and students with the best educational advice. If we feel that it is appropriate to offer a place at MPW, every effort is made during the interview to identify the right

programme and options, often by means of detailed discussion with individual subject tutors.

Once a student has been accepted at MPW, our aim is to provide the most effective possible preparation for the specific examinations that he or she will be taking. Our method is based on intensive tuition in small groups, close personal monitoring of academic progress and regular exam practice. We insist on strict punctuality in the attendance of lessons and the submission of homework but are otherwise free of many of the school rules that today's students find restrictive. Our reputation is based on having created a college in which students can enjoy working hard. The environment is friendly and informal, the tutors experienced and enthusiastic and the atmosphere positive and conducive to success.

“

Teaching staff are knowledgeable and highly dedicated to ensuring pupils' outcomes are the best they can be.

”

—Ofsted Inspection Report 2018

## College Inspections

The college is registered as an independent school with the Department for Education and as such is subject to regular inspections by Ofsted (Office for Standards in Education). The college has the honour of being rated as an Ofsted Outstanding School by virtue of its achieving an Outstanding rating in all of Ofsted's assessment areas. The full report on our March 2018 inspection is available on the college website.

“

Exceptional leadership and management have ensured that the school has maintained and further improved its outstanding provision.

”

—Ofsted Inspection Report 2018

# Our Method

Our small class sizes ensure intensive, interactive work and provide optimum conditions for individual progress and success.

## Tuition

We have a staff of highly qualified tutors, the majority of whom have several years' teaching experience at the college. Tuition takes place between the hours of 9.00 am and 6.00 pm on weekdays. MPW produces its own study materials in all major subjects and members of staff are available out of class time to provide help on an individual surgery basis. This time is used for clarification of subject material and help with timed assignments or past examination papers.

It is a fundamental principle at MPW that there are always fewer than 10 pupils in any one class. With these group sizes it is possible to combine a stimulating classroom atmosphere with the close individual attention that each student requires. Tuition is focused on the precise demands of the final examination and particular attention is paid to exam technique.

## Examination Practice

Each A level student is required to complete a weekly timed assignment in each subject. Timed assignments are usually of one hour's duration and are designed to test the understanding of work covered during the previous week. These are supplemented by regular, more substantial revision tests, the purpose of which is to ensure that revision is continuous and cumulative over the duration of the course. Full mock exams are held before all external examinations.

All timed assignments, revision tests and mock examinations take place under supervised exam conditions. The Study Centre is operated as a mock examination centre and is fully supervised from 9.00 am to 6.00 pm every day during term time. We place considerable emphasis on regular testing under timed conditions, which we find plays a major part in building students' confidence and motivation.

## Facilities

A full range of modern resources and facilities supports the college's programmes of teaching and learning. There are dedicated and fully-equipped laboratories for Chemistry, Biology and Physics, all finished to the highest specification. There is an Art Studio, Internet Library and ICT Suite, each of which offers optimal conditions for learning. All classrooms are internet-enabled and interactive whiteboard technology is available across the full range of subjects.

The Study Centre maintains a comprehensive selection of past examination papers and the Learning Resource Centre holds relevant subject journals and university prospectuses. Students have access to computers throughout the day in the Study Centre and the Learning Resource Centre. Our spacious, purpose-built student common room is the main hub of social activity outside the classroom and provides an area both for refreshments and relaxation.

## Supervision of Progress

MPW's Personal Tutor system provides close, friendly and constructive monitoring of students' progress. The Personal Tutors are readily accessible to parents and hold regular individual meetings with their students to discuss academic progress, degree applications and general welfare. A large proportion of the Personal Tutors' time is devoted solely to this important function. Students' attendance and punctuality are monitored closely.

Our work schedule is demanding and parental support is vital to any student's success. We encourage parents to discuss progress with us at any time. Written reports are sent to parents twice in the Autumn and Spring term and once in the Summer term. The reports provide information on general progress, timed assignment results and suggestions for short-term action. Reports are discussed with students in review meetings at which students and Personal Tutors together agree formal targets for development during the following half term.

# University Guidance

The clear aim of the majority of our students is to proceed to a university degree course after leaving MPW. A key part of the Personal Tutors' role is to provide the help and guidance necessary to make the most appropriate choices of course and institution.

## Degree Applications

For students in the lower sixth the process of applying to university begins in the Autumn and Spring terms with weekly sessions to prepare them for choosing courses and writing personal statements and culminates with a two-week university support programme at the end of the summer term. We are in favour of early applications for all courses in Higher Education and advisory discussions start in earnest at the first possible stage, normally during the initial student interview.

MPW Birmingham has built up considerable expertise of supporting students applying for some of the more competitive courses such as Medicine, Dentistry and Veterinary Science. This support extends to university

selection, help with structuring the personal statement, interview practice and preparation for the UKCAT, BMAT and other pre-admissions tests. Speakers ranging from university admissions tutors to gap-year students visit the college each year to give advice on the universities and departments that students from MPW have attended in the past.

“

The majority of students move on to university and enter a variety of degree-level courses, including medicine and dentistry. Staff keenly support students in their applications to university, which includes preparing for interviews.

”

—Ofsted Inspection Report 2018

## MPW Guides

Our experience of university admissions has led to the publication of a series of MPW Guides on Higher Education. These guides cover general entrance procedures, admission to Oxford and Cambridge and admission to degree courses such as Medicine, Dentistry, Pharmacy and Pharmacology, Veterinary Science, Physiotherapy, Business and Management, Psychology and Law. MPW Guides and our mock interview service are used not only by our own students but also by pupils from a wide variety of other schools.

## Citizenship Scheme

We believe that to be truly successful in life our students not only require good exam results but should also display initiative, hard work, possess outstanding communication skills and approach life in a positive, courteous and purposeful manner. All students at MPW join our unique Citizenship Scheme. We would expect students who achieve the MPW Citizenship Award to have shown a willingness to accept responsibility for their actions, to have contributed constructively to life at MPW and have engaged in some type of voluntary work outside MPW. In our experience involvement in schemes such as this significantly enhances students' university and career prospects.

## Sport and Extra-curricular Activities

MPW students enjoy access to the sports facilities at a local university. The most popular sporting activities are badminton, basketball, football, cricket, netball and general fitness training. MPW has an established football team which plays matches against other colleges. We run a popular debating society and our students participate annually in a Model United Nations conference. Our students may also take part in the Duke of Edinburgh Scheme and become involved in charity work with charities such as Challenge and Envision. We make the most of our central Birmingham location with programmed excursions to the Magistrates' Courts, Botanical Gardens, Planetarium, art galleries and museums. There are activities with travel further afield, including overseas study tours, theatre trips to London and Stratford-upon-Avon, field trips to Wales and History excursions around the country.

“

Students are exceptionally well prepared for life at university through the personal and social education curriculum and the ethos of the school, which encourages self-reliance and individual responsibility.

”

—Ofsted Inspection Report 2018

## A level at MPW

A level study at MPW is characterised by choice and specialisation. Subject choice is informed by the career aspirations of the individual student and by our personalised higher education guidance.

### Two-Year A level Courses

Most A level students at MPW study a two-year A level programme. These courses are designed for students who are continuing at MPW after GCSE or for students from other schools who are seeking a change of environment after the fifth form.

In common with most schools in the independent sector, the majority of students joining us in the lower sixth study three subjects at A level and undertake an Extended Project Qualification (EPQ). This programme enables students to follow a broad and balanced academic curriculum combined with the opportunity of developing in-depth study and research skills.

An increasing number of students also join MPW at the end of Year 12 either to complete the studies that they have started at their previous schools or to change direction with a new approach or a new set of subjects. Depending on prior academic attainment, this may mean transferring into the upper sixth or restarting in Year 12 at MPW.

### One-Year A level Courses

These self-contained courses cover the complete specification in one year and are run entirely separately from the second year of our two-year programme. One-year courses are designed for students with previous experience of A level work and include the option of students taking up a new subject that may not have been available at school, often allowing them to rethink their UCAS options in a fresh and constructive manner.

### Retake A level Courses

At MPW there are two main course duration and start date options for retake students at A level. The choice between these options often depends on previous grades, university aspirations and gap year plans.

Our September to June course suits those students who require thorough revision of all papers, often over more than one subject. Under the Reformed curriculum it is no longer possible merely to retake a subset of the papers that contribute to the overall grade and the full-year course is usually the safest and most effective means of securing a significant improvement.

The other main option is the January to June short retake course which may suit those who have narrowly missed their target grade, who perhaps have gap-year activities such as work experience or travel plans during the Autumn term and whose new UCAS application does not need to reference the academic progress made during a retake course.

It is essential to discuss the various short retake options carefully at interview.

### **Oxbridge Entrance**

Our Oxbridge preparation programmes are focused on the interview, on the candidate's wider reading and on the short written tests that are often set at the time of interview. We offer two mock interviews per candidate with a detailed written report sent to the student after the first interview. The second interview provides students with the opportunity of putting into practice lessons learnt from the first. Where appropriate, we also offer specialist extension tuition for Oxbridge candidates in individual subjects.

“

Students in the sixth form are extremely positive about the quality of teaching in the school. They appreciate the one-to-one support that is available when extra levels of challenge are required. Expectations are high, but support is always available to those who need it.

”

—Ofsted Inspection Report 2018

# GCSE at MPW

Our GCSE curriculum is specifically tailored to meet individual needs and provides a firm foundation for success at A level. Work done in the classroom is supplemented by a wide range of out of class activities designed to bring school work into the context of everyday life.

## Two-Year and One-Year Courses

Our Core Curriculum GCSE programme allows those who wish to transfer to MPW at the beginning of Year 10 or Year 11 to do so with the minimum of disruption to their studies. The two-year course is a fully integrated programme covering the requirements of the National Curriculum. These include English, Mathematics, Computer Science, Modern Languages and Sciences. Students may take up to 10 subjects. Students taking one-year GCSE courses receive more hours of tuition per subject, thus placing a lower limit on the maximum number of subjects that may be taken.

Students who are under 16 at the beginning of the school year are expected to be full-time. Students in this age group are required to participate in a wider range of activities than their older counterparts. In addition to the academic timetable, all students are supported by a PSHE programme that encourages them to understand their role in society and uphold the values of freedom, tolerance and respecting the rule of law. The PSHE programme also covers health, personal finance, careers education, current affairs and general studies.

GCSE students take part in a range of indoor and outdoor sports activities in which they are able to mix with A level students in a supervised environment. Many of the GCSE students are members of the college sports teams. GCSE students are given the opportunity to study a creative subject and of participating in the college enrichment clubs that explore areas such as photography and film.

“

The principal and the senior leadership team are ambitious for their pupils. Their collective experience and expertise ensure that the school benefits from leadership and management of the highest quality.

”

—Ofsted Inspection Report 2018

## Short Retake GCSE Courses

We run short retake courses for students who have narrowly missed the pass grade equivalent in English Language or Mathematics. Assessed coursework may either be improved and resubmitted or, where desirable and permitted by the examining boards, we can arrange for assessments made by other schools to be carried over.

## Student Supervision at GCSE

The relationship between the student and the Head of GCSE is a particularly important one at MPW. Students need access to a specialist who has a detailed overview of their strengths and weaknesses and of the demands placed upon them by the various subjects. The Head of GCSE holds regular individual meetings with each student and is the main point of contact with parents.

“

Pupils have extremely positive attitudes to learning due to the high quality of teaching and individual support they receive. They work hard and are determined to succeed. Behaviour in lessons and around the school is exemplary.

”

—Ofsted Inspection Report 2018

# MPW Prize Winners

Each year MPW awards a number of prizes in recognition of academic achievement. Last year's prize winners are listed below. Also listed are those students who won national awards from the Council for Independent Education (CIFE). MPW Birmingham picked up three out of the 20 prizes awarded by the sector nationwide.

HOWARD XU won the college's Outstanding Academic Achievement award. Howard joined MPW from China and completed a one-year A level programme in Chemistry, Mathematics, Further Mathematics, Additional Further Mathematics and Physics, obtaining grades A\*A\*A\*A\*A\*. He also gained an A\* in his Extended Project Qualification (EPQ). Howard won a place to read Mathematics at Jesus College, Oxford.

CHARLOTTE COOKE won the MPW Medical award. Charlotte transferred to MPW after completing her A levels at Haybridge High School, where she had obtained A level grades ABB in Spanish, Biology and Chemistry. At MPW she completed a one-year A level programme in Chemistry and Biology, achieving grades A\*A and winning a place to read Medicine at the University of Liverpool.

SHIVALI PATHAK won the Dentistry award. Shivali transferred to MPW after completing her A levels at King Edward VI High School for Girls, where she had obtained grades BBC in Biology, Chemistry and Geography. At MPW she studied a one-year A level programme in Biology and Chemistry and a short January to June A level course in Geography. She achieved grades AAA and won a place to read Dentistry at the University of Leeds.

ELA OLUWOLE won the MPW Humanities award. Ela joined MPW at the age of 15 from Lagos, Nigeria and studied a two-year A level programme in Economics, Biology and History, gaining grades A\*AA and winning a place to read Law at the London School of Economics.

**ROSEMOND TAN** won the MPW Science award. Rosemond joined MPW from The Raffles Girls' School in Singapore to study a two-year A level programme in Chemistry, Economics, Mathematics and Biology. She achieved grades A\*A\*A\*A and won a place to read Medicine at King's College, London.

**JOHNNY MORRIS** won the MPW prize for the most improved student. He joined MPW after completing his A levels at the Royal Grammar School, Worcester, where he had obtained grades BCC in History, Business Studies and Politics. At MPW Johnny studied a one-year A level programme in Business Studies and Politics and a short retake course in History. He achieved grades A\*AA and won a place to read Business and Management at the University of Exeter.

**JASBIR BANWAIT** won the MPW GCSE award. He joined MPW from Wolverhampton Grammar School after completing Year 9 and studied a two-year GCSE programme, gaining grades A\*A\*A\*A\*AAAA and grade 7 in Mathematics. Jasbir then stayed on for the sixth form at MPW, where he is currently studying a two-year A level programme in Biology, Chemistry and Mathematics.

**SYLVIA XIE** won the Nikul Patel memorial prize for Mathematics. She joined MPW from China and completed a two-year A level programme in Mathematics, Chinese and Physics, gaining grades A\*AA and winning a place to read Accounting and Finance at the University of Warwick.

**DARIUS SHOJA-ASSADI** won the Riya Dandekar memorial prize for Public Speaking. Darius joined MPW after completing his A levels at Solihull School, where he had achieved grades AAB in Biology, Chemistry, History and Mathematics. At MPW Darius completed a one-year A level programme in Economics, gaining an A\* and winning a place to read Philosophy, Politics and Economics at University College, London.

**IRETIDAYO ZACCHEAUS** won the NCUK Award. Iretidayo joined MPW from Nigeria to study on this nationally accredited university foundation programme. The award is conferred by the NCUK itself for Top Performing Student on the International Foundation Year. Iretidayo is now studying Business and Economics at the University of Manchester.

**CHRIS MORAN** won the Principal's Award for outstanding contribution to college life. Chris joined MPW after completing his GCSEs at The King's School, Worcester. At MPW he followed a two-year A level programme in Business Studies, Economics and Law, gaining grades AAB. Chris won a place to read Accounting and Finance at the University of Birmingham.

# Subjects Taught at MPW

## A and AS level

Accounting	Digital Photography	German	Physics
Ancient History	Economics	Government and Politics	Psychology
Art	English Language	History	Religious Studies
Biology	English Literature	Latin	Sociology
Business	Film Studies	Law	Spanish
Chemistry	French	Mathematics	
Chinese	Further Mathematics	Media Studies	
Classical Civilisation	Geography	Music	

“

Strong and respectful relationships between students and staff ensure that classrooms are productive places. The teaching of small groups of pupils allow teachers to plan and deliver individualised learning which has an excellent impact on progress.

”

—Ofsted Inspection Report 2018

### *GCSE (two-year integrated core programme)*

Art*	English Language	Modern Languages (French or Spanish)
Biology	English Literature	Physics
Chemistry	History	Religious Studies
Computer Science*	Mathematics	

*\*Students choose between GCSE Art and GCSE Computer Science.*

### *GCSE (available on one-year programmes only)*

Art and Design	French	Photography
Biology	Geography	Physics
Business Studies	German	Psychology

*Other subjects may be available from time to time.*

# Staff at MPW

## Principal

MARK SHINGLETON read International Business and French at the University of Westminster before obtaining a PGCE and an MA in Educational Leadership at the Institute of Education. He was Pastoral Director at Saint Charles Sixth Form College in London and Head of Sixth Form at Cokethorpe School in Oxfordshire before taking over as Principal of MPW Birmingham in 2009.

## Vice Principals

ADAM CROSS read Biological Sciences at Lancaster University before completing a post-graduate degree in Education. He joined MPW in 2003, becoming Head of Science in 2005 and Vice Principal in 2010. As well as teaching Biology, Adam is the author of MPW's *Getting into Dental School*.

JAMES BOURNE read Illustration at Plymouth University and joined MPW in 2006, becoming Head of GCSE in 2012. James continues to be involved in various community-based Art projects in the West Midlands. His work has been exhibited nationally including at Somerset House and the Old Truman Brewery in London.

## Assistant Principal

RYAN MORAN read Business and Accountancy and took his PGCE at Birmingham City University. He joined MPW in 2013 and also holds the positions of International Student Officer and Director of Student Enrichment.

## Director of Teaching and Learning

MARTIN BLYTH read Business and Management at Aston University. He joined MPW in 2014, becoming Head of Faculty in 2015 and Director of Teaching and Learning in 2017. As well as teaching Economics, Martin runs the college's EPQ programme.

## Director of Learning Support

BRIDGET HUTCHINGS read English and History at the University of Keele before completing her PGCE. She joined MPW in 2012 having held a number of senior positions within the independent school sector. Bridget is the author of MPW's *Getting into Pharmacy*.

## Head of GCSE

CLAIRE GREEN read Chemistry with Biochemistry at Keele University before completing her PhD in Chemistry at the University of Birmingham. She joined MPW in 2014, becoming Deputy Head of GCSE in 2016 and Head of GCSE in 2017.

## Director of University Applications

EMILY LUCAS read Medical Science at the University of Birmingham before joining MPW in 2013. Emily runs pre-admissions test prep for students and is the author of MPW's *Getting into Law*.

## Registrar

SALLY COOPER read Business Studies at the University of Central England. Prior to joining MPW in 1997 she served with the Women's Royal Naval Service and held senior administrative roles in several large companies.

# Tuition and Revision Courses

MPW runs a number of courses for students at other schools and colleges. These usually take place in the holidays, the evenings or on Saturday mornings.

## Easter Revision

Intensive A level and GCSE revision courses are organised during the Easter holidays. These courses are self-contained and include thorough revision of core topics, guided practice of examination questions and improvement of study and revision skills. Students may register for one-week courses that cover an entire subject specification or for individual day or half-day modules.

At the end of each course students receive guidance and suggestions for further improvement so that a step-by-step plan of immediate action is in place before the examinations. Separate course outlines are provided for each subject.

## Saturday Tuition

MPW offers Saturday morning tuition between the hours of 9.00 am and 1.00 pm when pupils from outside MPW have the opportunity of covering core topics and practising exam technique. Our team of tutors offer tuition in pre-GCSE, GCSE and A level courses and are familiar with all exam boards. Pupils are expected to attend a minimum

of six hours' tuition in each subject that they study. Further details may be obtained from the college Reception. Most Saturday pupils study Mathematics, Sciences or English but other subjects are available on request.

## Supplementary Tuition

We run a busy after-hours tuition programme for students who are studying at local schools and colleges. These sessions are tailored to the individual needs of A level and GCSE students. Tuition is also provided at pre-GCSE level in Mathematics, English and in verbal and non-verbal reasoning for school entrance examinations.

All tuition takes place on the college premises. We do not provide home tuition. Lessons normally take place between 4.30 pm and 6.30 pm, Monday to Friday. Tutorials last for one hour or one and a half hours. Many of our tutors are experienced examiners; all are enthusiastic about their subject areas and experienced in teaching a variety of syllabuses.

MPW Birmingham is situated on Greenfield Crescent in Edgbaston Village. The college is a short walk from Five Ways train station and is easily accessible via the M5, M6 or M42. Our proximity to the city centre and the University of Birmingham campus allow our students access to the full range of world class facilities that Birmingham has to offer.

# 2018/2019 Fees

## A level Courses

### Two-year courses

First year of two-year courses	per term £6,660
Second year of two-year courses	per term £6,660

### One-year courses

For one subject	per term £3,291
For two subjects	per term £6,582
For three subjects	per term £7,181

### Short retake courses

January-June course	per subject £4,434
---------------------	--------------------

*(These short retake courses cover the full specification at three hours per week.  
Part-time courses involving specific units for remaining Legacy subjects are available pro rata.)*

## GCSE Courses

### Integrated two-year course

Core curriculum	per term £4,974
-----------------	-----------------

### One-year courses

For up to four GCSE subjects	per subject per term £1,471
For five or more GCSE subjects	per term £6,741

### Short retake courses

September-January	per subject £3,067
January-June	per subject £3,067

## Other Fees

### Individual tuition

For programmes of more than six hours	per hour £76
	per hour £65

### English as an Additional Language (EAL)

per term £1,600

### Interview practice

Two interviews and written report	£295
-----------------------------------	------

### Registration fee

£270

There are no other fees except for the exam entry fees and, where appropriate, field trips.
